

DeliverX™ Plus siRNA Transfection Kit 4.0 mL

Product Insert

Cat. No. DX0054

About DeliverX Plus siRNA Transfection Kit

Panomics' DeliverX Plus siRNA Transfection Kit is a validated solution for many cell types. The kit contains reagents particularly well-suited for the transfection of classically difficult-to-transfect cell types and comes with a certificate of analysis for each lot and validated protocols for a number of cell types. Currently, there are validated protocols for 18 specific cell-types and additional protocols are being introduced on a monthly basis.

Safety Warnings and Precautions

All chemicals should be considered potentially hazardous. We recommend that this product and its components be handled by those trained in laboratory techniques and be used according to the principles of good laboratory practice.

For research use only. Not for use in diagnosis of disease in human or animals.

Contents and Storage

Component	Volume	Storage
DeliverX Plus siRNA Transfection Reagent	4 x 1.0 mL	-20 °C
DeliverX Plus siRNA Buffer-1	4 x 34 mL	15-30 °C
DeliverX Plus siRNA Buffer-2	4 x 34 mL	15-30 °C

- ◆ We recommend dividing DeliverX Plus siRNA Transfection Reagent into 50–100 µL aliquots to minimize freeze/thaw cycles.
- ◆ If stored properly, product shelf life is 6 months from the date received.
